What Makes Worship "Good"

"God is a Spirit, and those who worship Him must worship Him in spirit and truth." (John 4:24) First and foremost, our attitudes must be right. We must offer worship to please God, not ourselves (*Galatians 1:10*). This worship must be according to God-given instructions and guidelines, not according to man's design. It makes sense. If we are here to worship God, we must offer the things for which He has asked and which will please Him. To do less, or more, is a waste of time.

"Who exchanged the truth of God for the lie, and worshipped and served the creature rather than the Creator, who is blessed forever. Amen." (Romans 1:25) In order to keep correctly focused, we must remember our place. God is the Creator, and we are His creation. God is the one who is great, and we are His subjects. Too many today believe that worship service must be according to the worshipper's demands. Wrong! Worship is for God; and our attitudes, actions, and purposes should reflect this truth. Why do you come to worship service?

"For as often as you eat this bread and drink this cup, you proclaim the Lord's death till He comes." (1 Corinthians 11:26) When we gather on the Lord's Day, we gather to keep the only memorial He left us to keep. Our worship centers around the Lord's Supper. If Christ had not died for our sins, what purpose would we have for worshipping? He knew and understood the forgetful nature of His children. He left the Supper as a way for us to remember the great price He paid to make possible our hope for eternal life. Why would anyone desire to reduce the number of opportunities to partake, or willfully miss partaking, on the first day of each week?

If you desire to worship God acceptably, never forget that He is the object of our worship. If not, that worship is vain and unacceptable. Why not do it the right way?

If you have small children, 3 yrs and younger, we provide an attended nursery. We also have a worship training room for children 3 and up.

Welcome to the services of the Church. If you are visiting with us, we appreciate your presence and invite you to stay a few moments after worship so we may have an opportunity to meet you.

Evidence of Creation / Physical Sciences

The Universe Was Created Powerfully

Beyond the power that lights the universe with stars is our Creator, who carefully balances the laws of nature.

A star is a continuous explosion of awesome power. The power to create a universe with a billion galaxies, each with a billion stars, is beyond imagination. To create matter and energy can only be done by a Creator who is outside of nature.

The creation of the laws of nature themselves demonstrates an even greater power. These laws are balanced so that our sun provides the energy to us day by day. These laws are balanced so the molecules within us can use that energy.

The laws of nature are fine-tuned so our sun can burn and provide us with the energy we need.

Light from stars and the sun begins with hydrogen. Hydrogen is the most plentiful element in the universe. The sun is a large ball of very hot hydrogen. It is more than 100 times larger than the earth.

The energy of the sun comes from explosions of hydrogen. These are nuclear explosions, which are much more powerful than chemical explosions.

Gravity draws all the sun's hydrogen together creating intense pressure. In the core of the sun, the huge forces cause nuclear fusion reactions. Hydrogen atoms fuse together into helium and release huge amounts of energy.

These explosions do not cause the sun to suddenly blow up and then go cold. The balanced laws of physics hold our sun together. Gravity pulls the atoms back as each explosion pushes them away. This balance keeps the billions of stars in billions of galaxies burning.

If the laws of nature were just slightly different, the delicate balance would not exist between hydrogen, oxygen, and carbon. Without this balance thousands of critical molecular interactions would not happen. There are only a few elements that can sustain life through their unique properties. Any change would make life impossible.
